Rafael Marte | Thomas J. Sullivan | Steven A. Tanelli | Tracy Silna Zur

Let's learn about...

TUES., JULY 23 - DAY 1

ECOLOGY

Learn the basic principles of ecology and what makes up the biosphere that we live in. Learn about food webs and which animals eat what and why.

Birds, insects, plants, amphibians, fish, and mammals, big and small, all call our park home.

Come learn about how they are all connected!

WED., JULY 24 - DAY 2

HABITATS

We often think of natural habitats as places far from human impact, but our local environments are home to an abundance of wildlife. Discover the Environmental Center's different habitats, which animals live in which habitats, and how the animals adapt to survive in their respective homes.

THURS., JULY 25 - DAY 3

OUTDOOR PREPAREDNESS

Exploring the outdoors is so much fun! In order to have fun, be safe, and help protect the habitat, it is important to be prepared. Start your journey to become an outdoor survivalist and build your wilderness confidence by learning skills in trail safety, shelter building, fire building, and more.

FRI., JULY 26 - DAY 4

EARTH PROTECTORS

What is environmental responsibility and how can you help preserve wildlife and nature for the future?

Discover the principles of leaving no trace and the role you can play in preserving our parks and wild places.

Learn how to help the animals & habitats in your own backyard!
