### Project Overview

The purpose of the project is to enhance safety, relieve traffic congestion, correct/improve substandard design elements, and improve structure deficiencies.

Proposed improvements include:

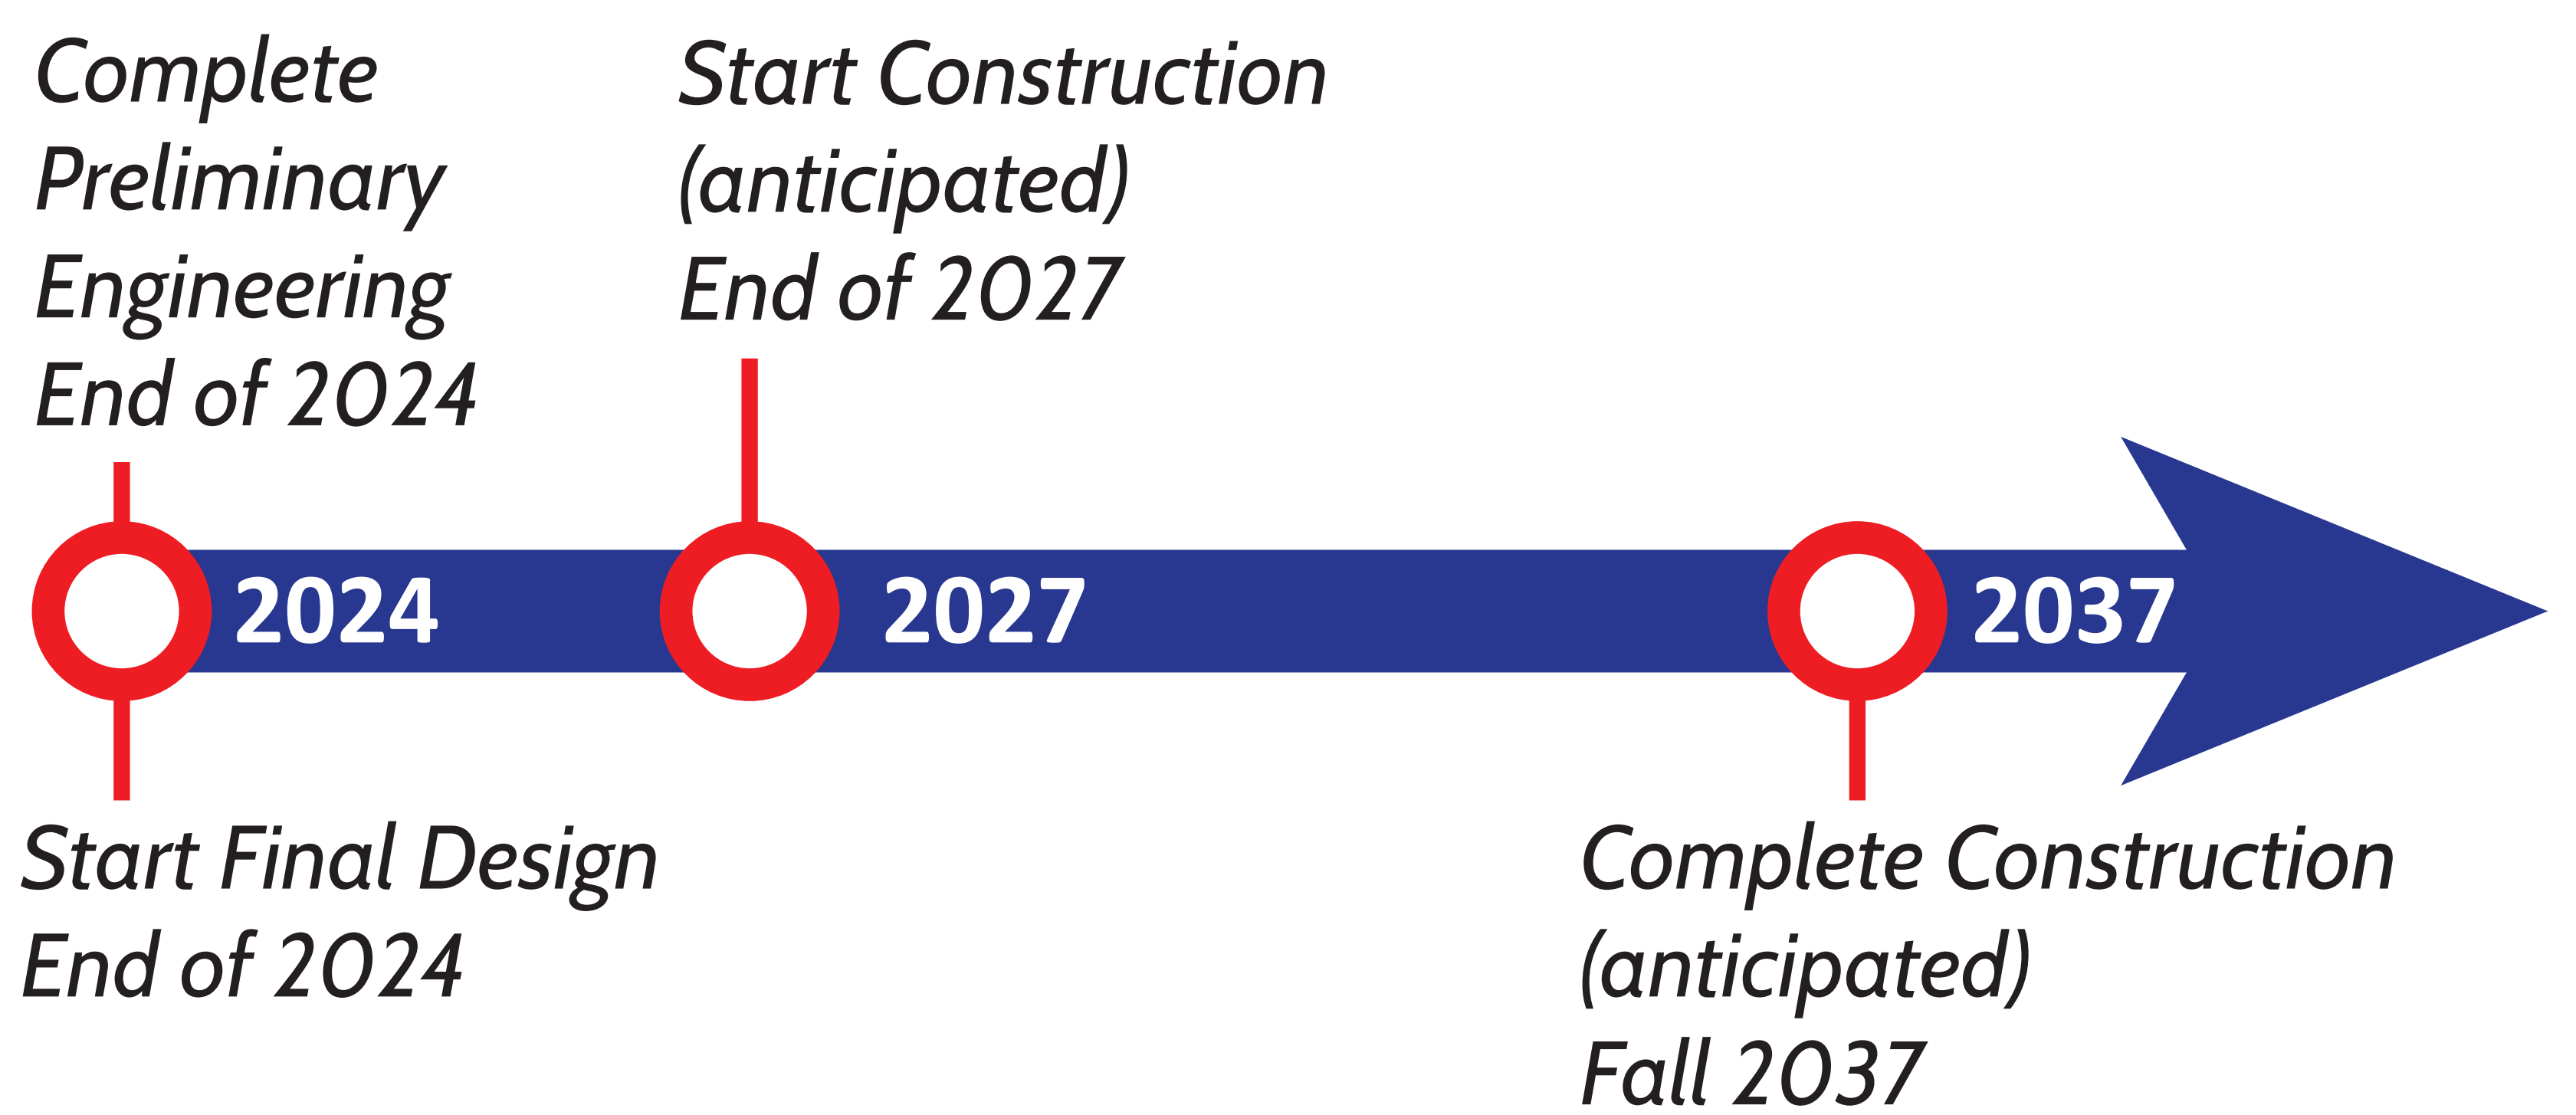

- ▶ Repairing, resurfacing or reconstructing pavement
- ▶ Widening 1.6 miles of westbound Rt 80 through Paterson from three (3) lanes to four (4) lanes
- ▶ Replacing eight (8) bridges, eleven (11) bridge superstructures, and five (5) bridge decks.
- ▶ Reconstructing or resurfacing twenty-eight (28) ramps
- ▶ Improving drainage, intersections, shoulders, cross slopes and auxiliary lanes

In addition, a noise wall study was completed and noise barriers will be included in certain areas, as approved by the Federal Highway Administration.
