Source: NJ Dept. of Education, <http://www.state.nj.us/education/>, <http://www.state.nj.us/education/data/enr/>. Note: Special education students taught in self-contained classrooms are reported in the "Special Education" category, while "mainstreamed" special education students are reported at their grade level. Figures that aren't whole numbers are because of "shared-time" students, who either split their time between two different schools, or attend school half of the day. Ungraded means the children are served in an educational unit that has no separate grades.  
 \*Data Not Available.  
 \*\*The NJDOE will no longer report students in Ungraded. In previous years the NJDOE was reporting data by district-reported program type code. Beginning in the 2023-2024 School Year, the NJDOE will be reporting data by district-reported grade level instead of program type code. This allows the NJDOE to include all students in the appropriate grade level or grade band reporting and it also aligns with how data is currently reported in the School Performance Reports.

MOE—margin of error. Data are based on a sample and are subject to sampling variability. A margin of error is a measure of an estimator's variability. The larger the margin of error in relation to the size of the estimates, the less reliable the estimate. When added to and subtracted from the estimate, the margin of error forms the 90 percent confidence interval.

## COMMUTING: Means of Transportation to Work, Travel Time to Work

MEANS OF TRANSPORTATION TO WORK Workers 16 Years And Over
